Calgary's Business Centre 1918

CALGARY DISTRICT

Calgary is the largest city in Alberta and the commercial centre of the province. It is situated in the centre of a diversified farming industry. The district West through the foothills to the Rockies is primarily a ranching country, but is also adapted to the raising of oats, barley and rye. The district East of Calgary is the great prairie country adapted to wheat, oats, barley, rye, flax and most all the garden vegetables.

Calgary is the live stock centre of the province, having the largest stockyards West of Winnipeg.

Our main office is located at 809 Centre Street, Calgary. We shall be glad to show prospective purchasers over the district at any time.

Good Buys in the Calgary District

Pride of Alberta

GLEICHEN DISTRICT

The Gleichen district is unquestionably one of the premier wheat districts of the West. This district includes the famous Blackfoot Indian Reserve territory. The first land sold from this reserve was in June, 1911. For the five years that this land has been under cultivation a record has been established in wheat growing. No such thing as a failure is yet known. Buyers are willing to go twelve to twenty miles from town in order to get into the Blackfoot district. The Canadian Pacific Railway from Suffield to Blackie is to be built through the Reserve territory. This road is completed as far as Lacombe. The district is close to Calgary. The roads between can be travelled most of the year with automobiles.

We cover the Gleichen district, including the Blackfoot lands, from our Gleichen office. Mr. L. J. Canfield, Manager of the Gleichen Branch, will be glad to show prospective purchasers over the territory at any time without expense to themselves.

Good Buys in the Gleichen District

- G. 129—160 acres 12 miles South of Gleichen; 140 acres tillable; 100 acres broken; all fenced. Price \$45 per acre; \$800 cash; balance arranged at 6% interest.

(Continued on Page nineteen)

MAIN STREET LOOKING WEST. THREE HILLS, ALTA.

THREE HILLS DISTRICT

Three Hills is one of the best towns along the Grand Trunk Pacific. It is situated 79 miles Northeast of Calgary, in the centre of a proven wheat district. There are eleven elevators within a radius of 9 miles from Three Hills, all built within five years. The Farmers' Co-Operative Elevator Company just doubled the capacity of their Three Hills elevator.

The district is far enough away from the mountains to be free from excessive rains and early frosts and yet close enough to the mountains that a beautiful rainfall is assured.

The soil is unexcelled anywhere, ranging from a black loam to a heavy black soil, especially adapted to retaining the moisture. The grass is long, and since the district is not subject to drought, there is never a shortage of feed. The district is comparatively free from hail.

Another advantage of the district is the cheap fuel. There are a number of coal mines scattered through the district, and one good mine just at the edge of the town where high grade coal can be bought at \$3.00 per ton.

We believe that the Three Hills District cannot be beaten anywhere for all around purposes.

Mr. Rollin, the Manager of the Three Hills Branch, or Mr. Carpenter, will be glad to show prospective purchasers over the district at any time, without expense to themselves.

Good Buys in the Three Hills District

- T. 456**—160 acres 10 miles North of Acme; 4 miles from Sunnyslope; school 1 mile; 50 acres tillable; balance brush and pasture; 50 acres broken; 4-roomed house; barn; all fenced. Price \$12 per acre; all cash.

Bird's Eye View of Youngstown

Close View of Elevators at Youngstown

YOUNGSTOWN DISTRICT

Youngstown is situated 170 miles Northeast of Calgary on the Canadian Northern Railway. It is the centre of a vast wheat growing territory. There are now eighteen elevators within a radius of thirteen miles from Youngstown, all built within the last five years and nearly all having extra storage capacity. Youngstown has six elevators, the others are located in the smaller towns within a radius of thirteen miles of Youngstown. These elevators tell their own story in regard to the amount of grain raised in the district.

The soil ranges from a sandy loam to a chocolate loam with a clay subsoil.

Mr. Balch, Manager of the Youngstown Branch, will be glad to show prospective purchasers over the district at any time, without expense to themselves.
